

Unit 2 – Building Functions from Other Functions

Overview

Topics

- 2 – 1. Piecewise functions
- 2 – 2. Point slope form of the line
- 2 – 3. Plot/explain parametric paths
- 2 – 4. Convert parametric equations to cartesian form
- 2 – 5. Parametric equations for linear motion
- 2 – 6. Creating parameterizations (cartesian $\rightarrow$ parametric)
- 2 – 7. Parametric equations for circular motion
